FCC Form 481

Line 100- Service Quality Improvement Reporting  
{47 CFR 54.313(a)(1)}

In the FCC's Public Notice DA 14-951, released May 1, 2014, the FCC waived the requirement for price cap ETCs to file a five-year plan.<sup>1</sup>

---

<sup>1</sup> The Public Notice stated, in relevant part:

We now grant a waiver of this requirement for price cap ETCs for an additional year. Because the Bureau just finalized the Connect America Cost Model, and price cap carriers have not yet had the opportunity to make a state-level commitment for Connect America Phase II, we find that it is not in the public interest to require price cap ETCs to file new five-year plans in 2014 for the same reason as last year: they do not yet know which areas they will be serving in the future.

**C & R Telephone Company**

Illinois

341009

**Line 510: Service Quality Reporting/Consumer Protection Rules Compliance**

C & R Telephone Company, hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company complies with service quality and consumer protection provisions under state law. These provisions include, but are not limited to, the following: (1) filing a Local Exchange Tariff pursuant to the requirements of The Illinois Public Service Commission which discloses rates, terms and conditions of service to customers; (2) compliance with state consumer protection provisions relating to Customer Services as identified in the Code of State Regulations, compliance with provisions for Quality of Service as identified in the Code of State Regulations, compliance with Service Objectives as identified in the Code of State Regulations, compliance with customer inquiry procedure as identified in the Code of State Regulations, compliance with Dispute standards as identified in the Code of State Regulations; (3) compliance with truth-in-billing requirements; and (4) compliance with Federal CPNI rules, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

In establishing this certification in its 2005 ETC Order,<sup>1</sup> the FCC found that an ETC must make "a specific commitment to objective measures to protect consumers."<sup>2</sup> The Commission found that for wireless ETCs, compliance with CTIA's Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis. In this context, the FCC stated, "to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement."<sup>3</sup>

C-R Telephone Company, The El Paso Telephone Company, and Odlin Telephone Exchange d/b/a FairPoint Communications are subject to Service Quality standards in Illinois. The following measurements are monitored: Installation of basic local exchange service, Restoration of basic local exchange service, and repair and installation appointments for basic local exchange service. Customers are credited by the Provider for violations of basic local exchange service quality standards. The rules require each telecommunications carrier to provide to the Commission, on a quarterly basis and in a form suitable for posting on the Commission's website, a public report that includes performance data for basic local exchange service quality of service.

If a customer has a concern about their FairPoint Communications' service or billing, he/she can contact repair service, technical support or customer service with information found on their statement. Customers may also contact agencies, through information posted in the phone directory, website, and tariff pages. All consumer complaints whether from Attorney Generals' offices, Public Utility Commissions, Better Business Bureaus, Federal Communications Commission and all other agencies are sent to the FairPoint Communications' Maine office via U.S. Mail or by electronic mail at [consumer@fairpoint.com](mailto:consumer@fairpoint.com). The complaints are directed to the appropriate responsible Company Team member within FairPoint Communications for resolution and response to the customer.

<sup>1</sup> *Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order, FCC 05-46 (rel. Mar. 17, 2005) ("2005 ETC Order").

Barney Boynton  
Director, Operational Risk

Form 481 Line 610: Functionality in Emergency Situations

## Business Continuity Plan Overview

### Introduction

FairPoint Communications, Inc. ("FairPoint") is committed to maintaining a vigilant state of disaster preparedness for the interests of our customers, stockholders, employees and other critical stakeholders.

The purpose of our Business Continuity Plan (BCP) is to define the disaster preparedness and recovery protocols and procedures required to restore FairPoint's critical business support functions, inside and outside plant systems and operations within FairPoint's operating footprint.

BCP components detail FairPoint's procedures for preparing for and responding to an emergency situation affecting our ability to deliver core services to our customers and our ability to meet legal dictates, and regulatory requirements.

This document discusses the following:

- BCP Scope & Structure
- Recovery Strategies and Logistics
- Plan Maintenance and Exercising

### BCP Scope

FairPoint's business continuity response planning is concentrated on two critical operational areas:

- Customer Interfacing – It is recognized that a "business impact" only occurs when an external-interfacing element is disrupted. In essence, this means that if FairPoint experiences a disruptive event, but one that does not breach the outer-shell of the FairPoint operation and interrupt critical customer services, customer product or other external end-user, then it does not have a business impact, as defined by the BCP
- Infrastructure Integrity – Without critical infrastructure systems, the ability for all other FairPoint business operations (back/front office) can come to a halt. It is these infrastructure systems that provide the critical human-factor of our customer-interfacing services. Critical infrastructure would address such services / systems as, building space for staff, service utilities, telecom network, IT network, etc.

The BCP has been developed to assure the continuity of critical customer interfacing services and systems should a physical incident or workforce disruption event occur, which affects:

- IT/IS
- Administrative and Support Operations
- Inside and Outside Plant Operations
- NOC (Network Operations Center)
- E-9-1-1
- Dispatch
- Repair Center

FairPoint has developed response / recovery strategies addressing physically disruptive incidents and workforce related disruptive incidents (i.e., work-stoppage and pandemic). All response strategies are based on recovery time objectives of those department functions and critical infrastructure systems essential to sustain customer interfacing services.

FairPoint Communications

1 Davis Farm Road  
Portland, ME 04103

Barney Boynton  
Director, Operational Risk

### **BCP Structure**

The BCP consists of several components:

- The BCP Manual (an overview of all BCP documents)
- IR Playbooks (addresses the response procedures for Physical and Workforce related events),
- Appendices (the IR Playbook procedures links to these Resources Files)
- Department Recovery Plans (Business and Plant Operations)
- Business Impact Assessments (Business and Plant Operations)

The Event Response diagram below identifies the overall BCP documentation and how a disruption or incident will dictate which path of the BCP will be followed to restore business operations.

Once the incident or disruption occurs, the Impact first needs to be quickly assessed to determine whether it is a physically disruptive event (local or regional) ("Physically Disruptive Event") or a workforce disruptive event (work-stoppage or pandemic) ("Work-Force Related Disruptive Event"). The disruption is always focused on critical business operations and services that can impact customer interfacing / deliverables.

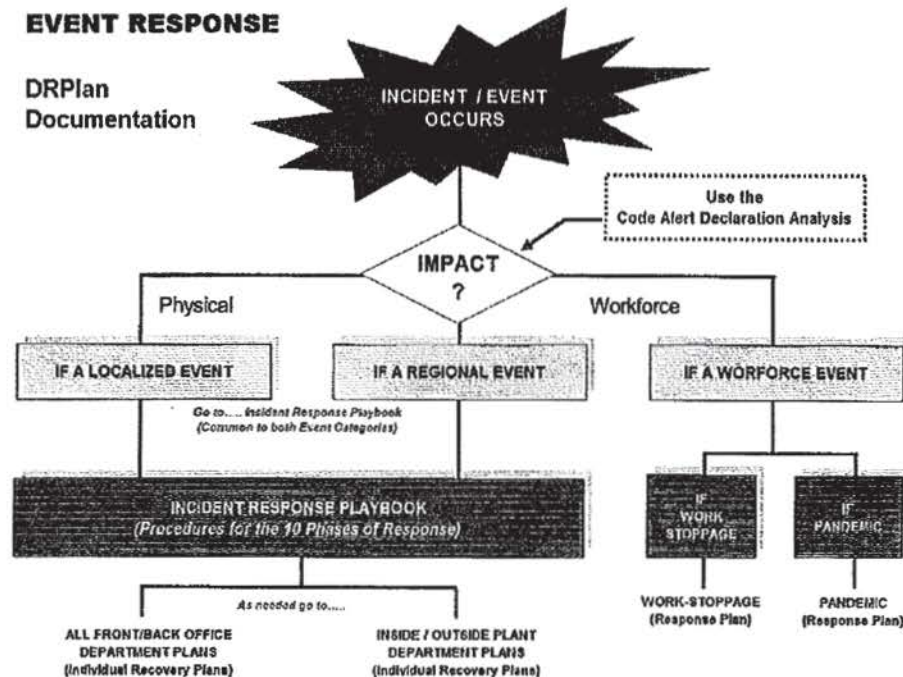

FairPoint Communications

Portland, ME 04103

Barney Boynton  
Director, Operational Risk

## EVENT RESPONSE

DRPlan  
Documentation

### Recovery Strategies and Logistics

Our BCP is based on the premise that FairPoint cannot stop disasters from occurring, but we can address the IMPACT of incidents should they occur. Where possible we will provide risk mitigation measures that will minimize the likelihood of having a serious disruptive incident but in no case can we eliminate all disruptive possibilities. The BCP is triggered by a Disruption Scenario, not a Threat Scenario. FairPoint pre-plans for potential break-points that can result in a customer interfacing disruption and incorporates recovery strategies that will inherently address any potential threat and any resulting business disruption impact. The actual threat (i.e. fire, flood, etc.) is pertinent only with respect to immediate response activities. All subsequent response efforts are focused on the assessment of damages (physical losses and recovery duration) and the implementation of restoration and recovery strategies. The restoration of the business servicing operations and infrastructure systems is based on salvage, replacement of systems and alternate functionality measures, which are pre-defined in the BCP.

Each department has developed a recovery plan based on its critical operations as they pertain to the deliverables they contribute to our customers. FairPoint has triaged the recovery efforts based on the concept of customer servicing impact. Federal and State regulatory requirements have a high level of consideration in

FairPoint Communications

1 Davis Farm Road  
Portland, ME 04103

Bamey Boynton  
Director, Operational Risk

addition to the business impact concerns. The BCP goal is to minimize the disruption duration as much as is practical and provide a level of risk mitigation that will maintain critical operations.

The Ten Response Phases of Physical Event are:

- Incident Notification
- Visual Damage Assessment
- Incident Stabilization
- Command Center Initiation
- Initial Notifications to Business Departments – to activate plans
- Primary Site Damage Assessments
- Ready Alternate Restoration Sites
- Primary Site Salvage & Recovery
- Business Restoration Process
- Primary Site Re-established

#### **Plan Maintenance and Exercising**

The BCP is a living document. Updates to the plan are ongoing with changes incorporated annually at a minimum. Individual plan components are scenario tested with oversight from FairPoint's Corporate Risk Management Team.

FCC FORM 481

Line 1010 –Voice Service Rate Comparability

The pricing of the company's voice services is no more than two standard deviations above the applicable national average urban rate for voice service, as specified in the most recent public notice, FCC DA14-384 released on March 20, 2014.

For Rates See Attachment: (700) Company Price Offerings (voice)

Form 481 Line 1210- Terms & Conditions for Lifeline Customers

C-R Telephone Company provides a Lifeline Program discount for residence service for eligible low income customers. The Lifeline Program discount is applied to any month to month residence local service, package or bundle offering. The discount is intended to offset the Subscriber Line Charge and local line charge, although eligible packages and bundles may have toll calling included in the pricing for the offering.

The tariff pages outlining the terms of the Lifeline Program in C-R Telephone Company are attached. The terms and conditions of residential basic local exchange service, package and bundle offerings can be found at <http://www.tariffs.net/fairpoint/tier.asp?cid=1644>.

TELEPHONE ASSISTANCE PROGRAMS

15. Telephone Assistance Programs (Cont'd.)

15.2.1 Universal Telephone Assistance Program (UTSAP) Voluntary Funding

- A. Customers wishing to participate in the funding of UTSAP may do so by electing to contribute, on a monthly basis, a fixed amount to be included by the company on the customer's monthly bill. The voluntary contribution shall not reduce the customer's total monthly bill amount due the Company for telephone services or other charges.
  - 1. Residential customers may elect to contribute \$.50, \$1.00, \$2.00 or \$5.00 per month.
  - 2. Business customers may elect to contribute \$1.00, \$5.00, \$10.00 or \$25.00 per month.
- B. Customers may elect to discontinue or change the amount of monthly contribution on their bill at any time upon providing at least 30 days notice to the Company.
- C. Failure by the customer in any month to remit the entire billed amount shall reduce the UTSAP contribution accordingly.

15.3 Lifeline Program

A. General

- 1. The lifeline Program is a federally funded program established to provide monthly assistance to low income households as described in Title 47 of the Code of Federal Regulations, Section 54. Eligible subscribers may receive a discount on monthly residential local exchange access service of \$2.75. In addition, the Federal Subscriber Line Charge of \$6.50 will be waived for a total monthly credit of \$9.25. A qualified household may receive Lifeline assistance for only one residence access line. (I)
- 2. A Lifeline applicant must participate in any of the following assistance programs to establish eligibility: (I)
  - a. Medicaid
  - b. Supplemental Nutrition Assistance Program, formerly Food Stamps
  - c. Supplemental Security Assistance
  - d. Federal Public Housing Assistance
  - e. Low Income Home Energy Assistance (LIHEAP)
  - f. National School Lunch Program's free lunch program
  - g. Temporary Assistance to Needy Families (TANF)

TELEPHONE ASSISTANCE PROGRAMS

15. Telephone Assistance Programs (Cont'd.)

15.3 Lifeline Program (Cont'd.)

In addition, an applicant may qualify if household income is at or below 135% of the Federal Poverty Guidelines for a household of that size.

A Lifeline applicant must certify eligibility as required in Title 47 of the Code of Federal Regulations, Section 54.

3. Lifeline service shall not be disconnected for non-payment of toll charges.
4. Qualifying low-income subscribers who voluntarily elect toll blocking, where available, will not be required to pay a service deposit in order to initiate Lifeline Service. This service will only be provided at the customer's request.
5. Qualifying Lifeline customers will not be charged a monthly number- portability charge.

<110> Has your company received its ETC certification from the FCC?	(yes / no) <input type="radio"/> <input checked="" type="radio"/>
<111> If your answer to line <110> is yes, do you have an existing §54.202(a) "5 year plan" filed with the FCC?	(yes / no) <input type="radio"/> <input type="radio"/>

If your answer to line <111> is yes, then you are required to file a progress report, on line <112> delineating the status of your company's existing § 54.202(a) "5 year plan" on file with the FCC, as it relates to your provision of voice telephony service.

<112> Attach Five-Year Service Quality Improvement Plan or, in subsequent years, your annual progress report filed pursuant to 47 C.F.R. § 54.313(a)(1). If your company is a CETC which only receives frozen support, your progress report is only required to address voice telephony service.

Name of Attached Document

Please check these boxes below to confirm that the attached document(s), on line 112, contains a progress report on its five-year service quality improvement plan pursuant to § 54.202(a). The information shall be submitted at the wire center level or census block as appropriate.

- <113> Maps detailing progress towards meeting plan targets
- <114> Report how much universal service (USF) support was received
- <115> How (USF) was used to improve service quality
- <116> How (USF) was used to improve service coverage
- <117> How (USF) was used to improve service capacity
- <118> Provide an explanation of network improvement targets not met in the prior calendar year.
